Celebrants

If you want a more personalised ceremony or something a little different to a traditional registrar then you might want to consider a celebrant.

Please note Celebrants don't currently have the capacity to perform legally binding ceremonies.

Nicky Wildin – Supernova Celebrant

Nikki Says “I love working with couples to create and conduct ceremonies that are different, unique & very you. I am happy to conduct ceremonies anytime, any place, anywhere!”

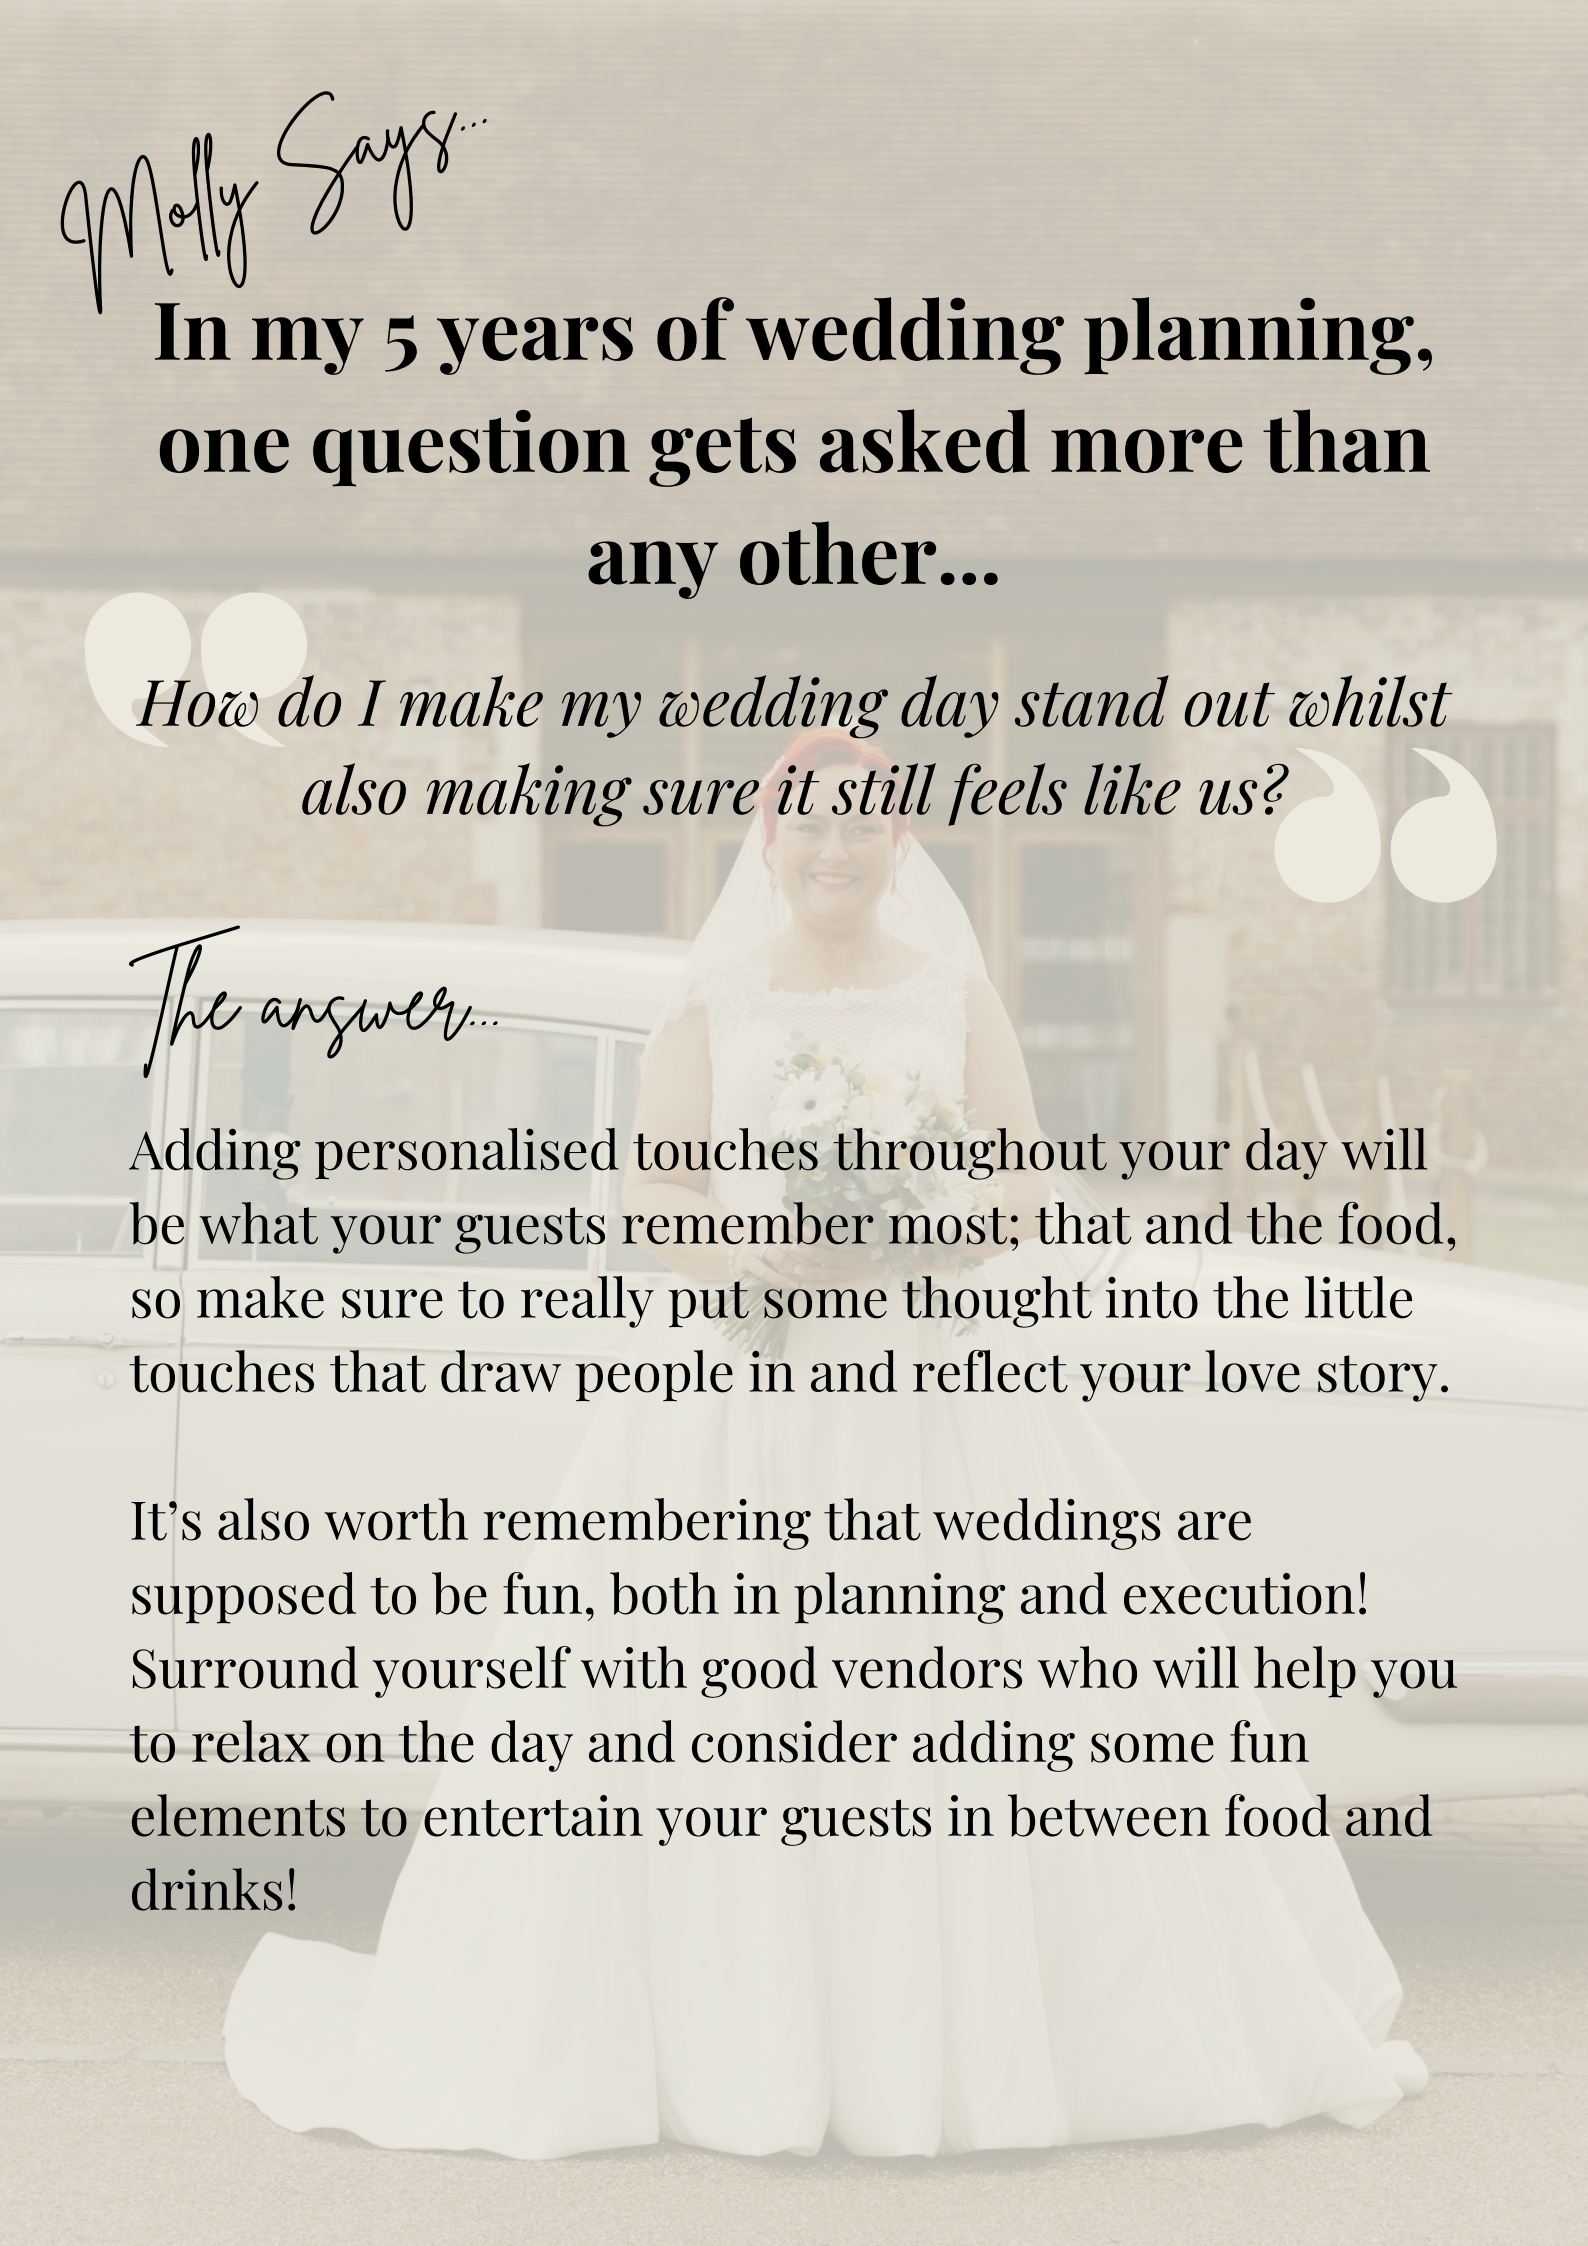

Tanisha Barrat – The Lovestruck Celebrant

Tanisha Says “Your ceremony is a celebration of you as a couple and your journey so far. A celebrant led wedding means we can incorporate as much silliness or seriousness as you want, together we will carefully craft a ceremony that totally reflects you!”

John Loy – The Southville Celebrant

John Says “[He] loves to create tailor-made, uniquely memorable wedding ceremonies.” “You may have some firm ideas, you may want guidance and suggestions, either way I’ll work with you to help create an unforgettable ceremony.”

Molly Says...

**In my 5 years of wedding planning,
one question gets asked more than
any other...**

*How do I make my wedding day stand out whilst
also making sure it still feels like us?*

The answer...

Adding personalised touches throughout your day will be what your guests remember most; that and the food, so make sure to really put some thought into the little touches that draw people in and reflect your love story.

It's also worth remembering that weddings are supposed to be fun, both in planning and execution! Surround yourself with good vendors who will help you to relax on the day and consider adding some fun elements to entertain your guests in between food and drinks!

Decor & Florists

We love to see our spaces transformed to reflect a couple's personality all the way from the ceiling drapes to the tables and these companies can help you bring it to life in a way that is truly unique to you.
